RE: ARN-911031MF
Bowdon, Georgia

Dear Ms. Searcy:

Transmitted herewith in triplicate on behalf of Terry C. Jenks, applicant for authority to construct and operate a new FM broadcast station at Bowdon, Georgia (ARN-911031MF), is an amendment to his above-referenced application, filed as a matter of right.

Should any question arise concerning this matter, please communicate with this office.

Very truly yours,

AMENDMENT

Federal Communications Commission
Office of the Secretary

The application of Terry C. Jenks for authority to
construct and operate a new FM broadcast station at Bowdon,
Georgia (ARN-911031MF), is hereby amended to include the
attached materials.

Respectfully submitted,

TERRY C. JENKS

INTEGRATION STATEMENT

1. Terry C. Jenks proposes to work full-time (a minimum of 40 hours per week) at the proposed radio station. If his application is granted, Mr. Jenks will resign his current employment and move to Bowdon. Briefly, his duties at the station will include overseeing and supervising all aspects of the operations of the station, including programming, sales, personnel, marketing, and technical operations.

2. (a) No
(b) No; however, Mr. Jenks will claim qualitative credit for future local residence. To the extent legally possible, Mr. Jenks will also claim credit for his knowledge of the service area.
(c) No
(d) Mr. Jenks has never worked at a broadcast station and will not claim qualitative credit for past employment at a broadcast station. Mr. Jenks has had sales, marketing and advertising employment experience and will, to the extent legally possible, claim qualitative credit for that experience.
(e) No.

AUXILIARY POWER AND FAA APPROVAL

Section V-B is amended to state that the applicant proposes to install auxiliary power at both the transmitter and studio sites.

Section V-B is also amended to include the attached Acknowledgment of Notice of Proposed Construction or Alteration/Determination of No Hazard from the Federal Aviation Administration.

AERONAUTICAL STUDY
No: 91-ASO-1910-OE

Type Structure: ANTENNA TOWER 105.5 MHZ/6.0 KW ERP

The Federal Aviation Administration hereby acknowledges receipt of notice dated 10/28/91 concerning the proposed construction or alteration contained herein.

A study has been conducted under the provisions of Part 77 of the Federal Aviation Regulations to determine whether the proposed construction would be an obstruction to air navigation, whether it should be marked and lighted to enhance safety in air navigation, and whether supplemental notice of start and completion of construction is required to permit timely charting and notification to airmen. The findings of that study are as follows:

The proposed construction would not exceed FAA obstruction standards and would not be a hazard to air navigation. However, the following applies to the construction proposed:

The structure should be obstruction marked and lighted per FAA Advisory Circular AC 70/7460-1H, 'Obstruction Marking and Lighting'. CHAPTERS: ☒-3 ☒-4 ☒-5 ☐-6 ☐-7 ☐-8 ☐-9 ☐-10 ☐-11 ☐-12 ☒-13.

Supplemental notice is required at least 10 days before the start of construction and within five days after construction reaches its greatest height (use the enclosed FAA form).

This determination expires on 07/31/92 unless application is made, (if subject to the licensing authority of the Federal Communications Commission), to the FCC before that date, or it is otherwise extended, revised or terminated.

If the structure is subject to the licensing authority of the FCC, a copy of this acknowledgement will be sent to that Agency.

NOTICE IS REQUIRED ANYTIME THE PROJECT IS ABANDONED OR THE PROPOSAL IS MODIFIED

SIGNED Alfred P. Smith Specialist, Systems Management Branch
Alfred P. Smith (404) 763-7646.
